

START FROM A STRONGER BASE.

PetroUltra Oils has implemented a quality management system, in line meet the requirements of the ISO 9001 : 2000 QMS Standard to ensure that the company is focused on consistently conforming to customer requirements.

In doing so, the company is committed to:

- Understanding and satisfying the requirements of its customers.
- Providing quality products to all customers.
- Striving to conform to other quality related requirements governing the operations.
- Reviewing, identifying and implementing improvement opportunities in its QMS.

Conforming to these requirements requires all employees in the company to work together as a team in the daily functioning of the QMS and to improve the effectiveness of the QMS by establishing Objectives and measuring, analyzing and improving the performance of the QMS.
